

PRECIOUS PAWS

Mobile Veterinary Ultrasound

SERVICES

ABDOMEN/PELVIC COMPLETE

\$ 400 + HST

Includes imaging of the liver, gallbladder, bile ducts, pancreas, kidneys, adrenal glands, spleen, stomach, pylorus, GI tract and bladder. Imaging of pelvic organs such as prostate, uterus and ovaries will be included if clinically warranted.

LIMITED ABDOMEN/PELVIC

\$310 + HST

3 organs or less. Intended for following up abdominal or pelvic pathology seen on a recent ultrasound within the last 3 months.

SOFT TISSUE/PALPABLE LUMP

\$310 + HST

Assess superficial lumps to help characterize size and cystic vs solid. Can also help identify joint effusions, masses arising from tendons and if a mass is present within the muscle. Also can aid in detecting hernias, subcutaneous fluid collections (seroma, hematoma, abscess), post-surgical sites.

THYROID/PARATHYROID/NECK

\$310 + HST

Assess for abnormalities such as cysts, nodules and tumors in Thyroid and Parathyroid glands. Cervical region will also be assessed for any lymphadenopathy/masses.

PREGNANCY ULTRASOUND

\$100 + HST

Confirm pregnancy, viability and approximate fetal count. Most diagnostic between 30-35 days post last known breeding.

\$250 + HST (if sent to radiologist)

ULTRASOUND GUIDED THORACENTESIS/ABDOMINOCENTESIS

\$100 + HST

Helpful to identify fluid, and ensure that vital organs are not inadvertently punctured. This is strictly ultrasound guidance, needle insertion will be performed by the veterinarian.

No extra fee if performed in conjunction with abdominal ultrasound. There will be no radiologist report if performed as a stand alone procedure.

ALL PRICES ABOVE INCLUDE THE TELERADIOLOGY FEE.

YOU WILL RECEIVE A DETAILED REPORT BY A BOARD CERTIFIED VETERINARY RADIOLOGIST.
